

Abhishek Singh

Aspiring Data Scientist with hands-on experience in data analysis, recommendation systems, and backend development using Python and SQL.

EDUCATION

Kalinga Institute of Industrial Technology (KIIT)

Bachelor of Technology in Computer Science and Engineering

Bhubaneswar, India

2023 – Present — CGPA: 8.44

PROJECTS

Game Development Project – IIT Guwahati Game Jam (GameDeon) | *Godot, GDScript* 2025

- Developed and published a game on **itch.io** as part of a 2-member team
- Secured **7th position among 50 teams** nationwide and invited to IIT Guwahati
- Implemented core gameplay mechanics, logic flow, and event handling
- Collaborated in rapid prototyping and debugging under strict time constraints

Book Recommendation System | *Python, FastAPI, Pandas, Scikit-learn, SQL* 2026

- Built a content-based recommendation system on a dataset of 10K+ records using similarity metrics
- Designed and implemented a content-based recommendation system using TF-IDF vectorization and cosine similarity
- Performed data preprocessing and exploratory data analysis (EDA)
- Developed REST APIs using FastAPI for recommendation serving
- Integrated frontend interactions using jQuery

Rockfall Game | *Python, Pyxel* 2025

- Developed a 2D arcade-style game with collision detection and scoring logic
- Implemented real-time game loops and event-driven mechanics

Terminal-Based Hangman Game | *Python* 2024

- Created a command-line game with input validation and game state tracking

Dot Painting Generator | *Python* 2024

- Programmatically generated dot art patterns using algorithmic logic

TECHNICAL SKILLS

Languages: Python, C, C++, Java, R, JavaScript

Databases & Querying: SQL, MariaDB, SQLite

Data Science: Data Analysis, Exploratory Data Analysis (EDA), Recommendation Systems

ML Techniques: TF-IDF, Cosine Similarity

Data Tools: Pandas, NumPy, Scikit-learn, Jupyter Notebook, Matplotlib

Frameworks & Dev Tools: FastAPI, Git, GitHub, Docker (basic), Godot Engine

Web: HTML, CSS, jQuery

Platforms: GitHub Pages, Linux (CLI), VS Code

CERTIFICATIONS

IBM: What is Data Science? Coursera

Covered fundamentals of data science, roles, and applications in industry; Grade Achieved: 91%

IBM: Tools for Data Science Coursera

Learned Python, SQL, Jupyter Notebook, Git, and data analysis tools; Grade Achieved: 83.91%

IBM: Data Science Methodology Coursera

Studied data science workflow, project lifecycle, and methodology for analytics projects; Grade Achieved: 79%

Google: Foundations: Data, Data, Everywhere Coursera

Explored data-driven decision-making, data collection, analysis, and interpretation; Grade Achieved: 93.75%

IIT Guwahati Game Jam – GameDeon IIT Guwahati

Developed a game with a 2-member team; implemented core gameplay mechanics

2025

ADDITIONAL

Competitive Programming

Solved 250+ problems on LeetCode and CodeChef using Python and C++
